 Skin irritation: No symptoms
 pH value: 8,5

VOC g/l:100
 Degradability: Biodegradable in part only
 Shelf life: 12 month
 Safety measures: consult the Safety Data Sheet

APPLICATION AND USE

- Application
 This product is applied in garages, chemical-working and mineral oil - working firms, that means practically in all firms where the protection of the skin is essential. This barrier hand foam protects against toxic and irritating agents of aggressive chemical substances, dirt, ink, colours, oil, detergents (for example washing and cleaning agents). This product is water-resistant, protects against solvents, acids, lyes, oils, tar, bitumen, ink, lacquers, colours, pigments, cement, lime, soot, adhesives as well as other building material belonging to this category.
- Use
 Shake can well before use. Before starting to work spray it onto and massage it well into your hands. Don't forget the thumbs and finger-tips. Allow to absorb for approx. 2 minutes, the foam penetrates into the pores of the skin and produces an invisible oil-free film. This prevents the penetration of lubricants or any kind of dirt into the skin and pores. After the job dirt can be washed up without any problems with warm water, only in case of persistent dirt washing with soap is necessary. This foam is dermatological approved.
