 Boiling point: approx. 100°C
 Density (at 25°C): 1,01 g/cm³
 Solubility in water: completely miscible
 Dynamic viscosity (at 25°C): < 600 mPas (50 1/s)

INCI ingredients:
 Aqua, Methylisothiazolinone, Colorant, Deceth-8, Sodium Alkylamine Carboxylate, Hydroxyethylcellulose, Sodium Citrate, Parfum, Alcohols Ethoxylated Propoxylated, Glyoxal, Benzisothiazolinone

Application and Use

- ECO TECH is designed to be used on all water-resistant surfaces and floor coverings. ECO TECH is recommended for renovating floors and woodwork, walls, ceilings, desks and furniture, venetian blinds, industrial machinery and fixtures, general construction clean up and wherever a safe, deep cleaning agent is required.
- Floor and wall cleaning:
 Add 20 - 50 ml ECO TECH to 10 liters of cold water.
 Floor: Scrub or mop floor with solution. Remove dirt with squeegee or damp mop. Floor may be rinsed if desired.
 Wall: Wet a sponge with this solution and wipe surface or apply with Trigger Sprayer. Remove soil with sponge or clean cloth. Rinse sponge frequently to prevent soil buildup.

- Machine cleaning:
 Add 50 ml ECO TECH to 10 liters of water.
- NOTE: Concentrate - Do not use undiluted. Always use cold water. Keep out of reach of children. Do not mix with other cleaning agents.
