

PCL

STRONG CLEANER FOR CARBURETOR PARTS

- Powerful for the use in fuel systems
- Removes contaminations as carbon, grease, resin, gum, oxidation,...
- Prevents EGR valves from blocking
- For the cleaning of parts such as valves, actuators, EGR-valves, injectors, carburetor parts and many more
- Maintains engine performances
- Safe for the use in catalyts
- Usable for polluted parts of diesel and fuel engines
- Includes lubricants and anti-wearing additives

PARTS CLEANER HD

General Information

PARTS CLEANER HD is a powerful and reliable cleaner for the cleaning of parts in fuel systems. It effectively removes contaminations such as carbon, grease, resin, gum, oxidation and many more. Due to its formulation it is especially suitable for the use on automotive

parts such as valves, actuators, EGR-valves, injector and carburetor parts. PARTS CLEANER HD is fast acting and leaves no film residue that may cause jamming of parts.

Technical Information

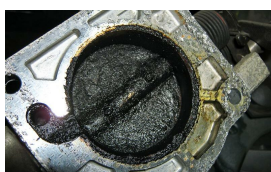

Form: aerosol
 Base: mixture of aromatic, aliphatic hydrocarbons, ketones and alcohols
 Colour: colourless
 Odour: characteristic
 Initial boiling point: -44,5°C
 Flash point: -97°C
 Ignition temperature: > 200°C

Lower explosion limit: 0,7 Vol%
 Upper explosion limit: 12 Vol%
 Vapour pressure (at 20°C): 3400 hPa
 Density (at 20°C): 0,745 g/cm³
 Evaporation rate: medium
 Application temperature: 10°C - 35°C
 Shelf life: 12 months
 Storage: cool (10°C - 20°C) and dry

Application and Use

- APPLICATION:
 - Cleans valves, EGR-valves, actuators, injectors, carburetor parts,...
 - Prevents EGR valves from blocking
 - Can be used for pollution such as oxidation and grease deposits
 - Includes short nozzle for areas that are difficult to reach and a long nozzle for spraying during starting problems
 - Removes carbon and grease deposits, resin, gum, oxidation, etc.
- USE:
 - Use on room temperature. Shake the can before use.
 - Spray onto the surface/part to be cleaned.
 - In certain cases, the product needs time to soak.
 - If necessary, wipe or brush off. Then leave to evaporate/dry.
 - ! The cleaner may damage paint and some plastics. Therefore surfaces must be tested in a concealed area first !
