

## MTN

### WATER RESISTANT, ANTI-CORROSIVE DE-SEIZER, LUBRICANT AND CLEANER

- Works very quickly
- Wets, penetrates, cleans and lubricates in a single step
- Performs difficult de-seizing without damaging threading
- Provides a water-repellent and phosphate coating
- Does not contain silicone
- Improved anti-rust, anti-corrosive and anti-wear properties
- 3 times better than PTFE

### NOTICE

All information including images are given with the greatest care. Still, it is appropriate to users regardless of the test the suitability of each product for their own purposes. Tech-Masters is not liable for the completeness and accuracy of information and refuses warranty for your specific use. The guarantee, which Tech-Masters products provide, relates only to the standard conditions of sale of this product. In no case Tech-Masters can be held responsible for incidental damages, or damages for improper use or sale of the product to another customer.

## MULTI TECH NANO

### GENERAL INFORMATION

MULTI TECH NANO is a super-penetrating de-seizer and rust reducer, with rapid phosphate coating action from new nanoparticle technologies. It's special formulation produces a phosphate coating on parts and lubricates over several months.

MULTI TECH NANO reduces maintenance costs and

gives a longer life to the lubricated parts.

MULTI TECH NANO is your product for unblocking heavily seized assemblies and provides long lasting protection on any environmental humidity levels.

### TECHNICAL INFORMATION

Appearance: opaque liquid

Color: black

Viscosity (at 40 °C): 220 cP

Density (at 20 °C): 0.81 g/cm<sup>3</sup>

Flash Point: > 60 °C

4 balls EP-test: (ASTMD2596): 9000N

EMCOR corrosion (NFT 60 135): 0-0

Operating temperature range: -30°C to +300°C

Solubility in water: insoluble

Flammability: extremely flammable

Store in closed original packaging away from sources of ignition and in a well-ventilated area.

### APPLICATION AND USE

- MULTI TECH NANO is recommended for use in: Marine environments, cement works, petrochemicals, agriculture, military, aerospace, etc.
- MULTI TECH NANO is particularly suited for unblocking seized assemblies: bolts, nuts, screws, threads, waterworks rods, pulleys and mountings requiring usage of an effective de-seizer.
- MULTI TECH NANO produces a phosphate coating on parts, and lubricates very well over several months.
- MULTI TECH NANO is perfectly water-resistant, it provides effective and long-lasting protection regardless of environmental humidity levels surrounding treated parts.
- Inventory is reduced, life of equipment is increased and maintenance costs reduced.
