RESCUE TAPE

GENERAL INFORMATION

RESCUE TAPE is a self-adhesive, haemostatic bandage that can be applied on wet or even dirty hands.

RESCUE TAPE is manufactured of cotton that is impregnated in a disinfectant and haemostatic product.

TECHNICAL INFORMATION

Approved in accordance with the IFA-standards, for use in hospitals.

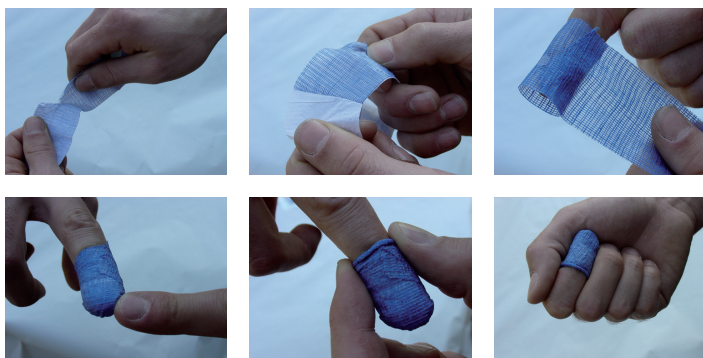

Shelf life: minimum 5 years, keep dry, preferably at a temperature between +10°C and +30°C.

Safety measures: consult the Safety Data Sheet.

APPLICATION AND USE

- **USE:**
Tear off approx. 25 cm. Remove the protective paper. Wrap the bandage overlapping the finger and glue the ends together. Wrap around in a spiral shape. Compress the protruding bandage on the fingertip and, to fix it, roll the bandage upwards slightly at the end of the finger. Can also be used as a hot compress by folding the fabric a few times.
- **APPLICATION:**
 - to take care of small wounds on the fingers
 - easy to release
 - resistant to water, oil, greases, sand,...
 - ideal for sensitive hands
