INTERLOCK

General Information

INTERLOCK is a bundeling tape that grips when it overlaps itself to create a reusable fastening with excellent sheer strength that remains easy to peel open. INTERLOCKS 3-dimensional film fastener made of Polypropylene/Polyamide allows the micro-structured surface to engage with most woven textiles,

where even the finest structures are possible. INTERLOCK secures a wide range of materials, cables and tools without any damage and adjustable and is quick and easy to install. INTELOCK is designed for interior and exterior use.

Technical Information

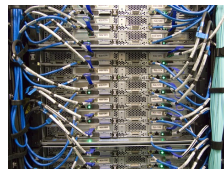

Size: 16mm x 3m
 Thickness: 0,9mm
 Colour: black
 Carrier: Polypropylene/Polyamide
 Application temperature: +10 to +30 degrees
 Temperature resistant: up to +100 degrees
 Tensile strength: 2 N/cm²
 Peel Strength: 0,4 N/cm
 Shear Strength: 30 N/cm²
 UV and weather resistant
 Fire-retardant
 With "mushroom head" technology

Surface construction: Polyamide looped jersey; polypropylene mushroomheads.
 Storage and shelf life: Clean and dry in a well ventilated area, preferably at a temperature between +10°C and +30°C. Stored under these conditions shelf life will be a minimum of 24 months.

Application and Use

- To secure and attach high quality cables.
- Automotive construction: Clear installation for all car electronics.
- Suitable for all computer, appliance and electronic wire management and organization.
