General Information

Free your workshop from danger sources like unwanted spills and liquids with the mobile and ergonomic absorbent station CLEAN UP.

The corresponding absorbent CLEAN UP POWDER is stored in and distributed with the station. The powder instantly absorbs all types of liquids, leaving the treated surface without any grease film or residues.

CLEAN UP is delivered with the additional shovel and brush for easy handling of the absorbent. The sifting system inside CLEAN UP offers you the possibility to effectively separate the saturated absorbent from the absorbent that can be used again. This technology is not only eco-friendly, it also allows you to save money.

Technical Information

CLEAN UP

Dimensions: L 570 x l 689 x H 1090 (mm)
 Empty weight: 22,5kg
 Capacity: 50l maximum (1 advised refill, max. of 2)
 Composition: PEHD rotomoulé
 Included: shovel, broom, clips, sieve

CLEAN UP POWDER

Form: powder
 Colour: whitish
 Odour: odourless
 Base: lignocellulose
 Auto-ignition temperature: product is not self igniting.
 Explosive properties: product does not present an explosion hazard.
 Solubility in water: insoluble

Application and Use

- USE:
 - Take the mobile CLEAN UP station and place it near the spillage
 - Open the lid on the front and take the shovel to spread CLEAN UP POWDER over the liquid
 - Use the brush to spread the powder which absorbs all fluids
 - Afterwards take the shovel and place the dirty absorbent in the sieve
 - Pull it back and forth to separate the soiled absorbent from the reusable powder
 - Then take the sieve and pour the used absorbent into the integrated recycling bin
- APPLICATIONS:
 - Ideal for workspaces where frequent liquids spills happen
 - Car workshops, hospitals, fire brigades, etc.
- 1kg CleanUp Powder absorbs approx. 3.3kg water
- 1kg CleanUp Powder absorbs approx. 1.35kg Diesel
