CARE & PROTECT CREAM

General Information

CARE & PROTECT CREAM is the ideal product for refreshing plastic and synthetic parts. This water- and dirt-repellant cream prevents parts from recontamination and restores the original shine and appearance of plastics and synthetic materials. CARE & PROTECT CREAM provides this effect over a long time period which makes it very economical in use. Frequent use of the product even enables you to prevent plastic surfaces from bleaching out.

Especially in the maintenance of vehicles, this product will help you saving money and time. CARE & PROTECT CREAM can also be used for many other applications like the treatment of trailers, motorbikes, bicycles and other plastics parts. The product is formulated without solvents and silicones. It does not form any gases which makes it save for every user.

Technical Information

Aggregate State: viscous
 Colour: whitish
 Odour: characteristic
 Initial boiling point and boiling range: 145 °C
 Flash point: 66 °C
 Auto-ignition temperature: > 24 °C

Upper/lower flammability or explosive limits: 0,6 - 7 Vol-%
 Vapour pressure: 100 hPa (20 °C)
 Density: 0,8 g/cm³ (20 °C)
 Water solubility: Immiscible
 Kinematic viscosity: 50 - 100 mm²/s (40 °C)
 Storage: ideal at 15-20°C
 Shelf life: 24 months

Application and Use

- APPLICATION:
 - Ideal for refreshing the look and shine of plastic, synthetic and rubber parts
 - Suitable for the care and sealing of non-painted plastic and rubber surfaces
 - Can be used on pressed synthetic material like bumpers, grids, tires, mudguards, trims, plastic frames....
 - Restores parts that suffer from wear
 - Prevents freezing of rubber parts in refrigerated rooms
- USE:
 - Shake the bottle well before use
 - Use a soft towel to spread CARE & PROTECT CREAM evenly on the surface to be treated
 - For rough and highly soiled areas we advise you to use a sponge
 - Afterwards use a clean, soft cloth to polish the surface
 - Test the product on sensitive materials before general use
 - Do NOT use on hot surfaces!
